

The Way Forward: Some Contribution From a New Generation of Tuning Projects

ACE Project in Latin America

(Student Centred Approach in Latin America)

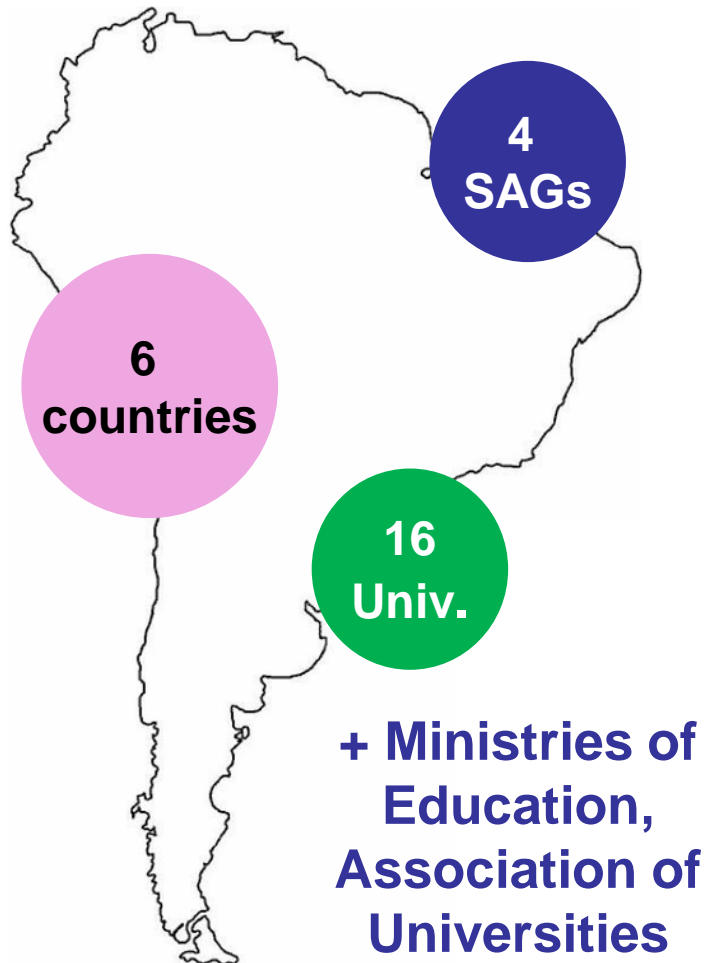

Pablo Beneitone

Bangkok, 9 October 2019

Co-funded by the
Erasmus+ Programme
of the European Union

ACE project (2020-2022)

IMPLEMENTATION

Staff development

Student involvement

Environmental Engineering

Teacher Education

History

Nursing

Expected results

- Updated **'meta-profiles'** based on the outcomes of earlier **Tuning LA projects** and the recent outcomes of the **CALOHEE project**.
- A set of current **student-centred degree programmes**.
- An **open resource data-base of good practices** for learning, teaching and assessment which support the general descriptors of each of the four subject areas involved in the project.
- Practical **models for reform and staff development**.
- Feasible **models for student involvement** in curriculum design, implementation and enhancement which does justice to the paradigm of student centred and active learning.

Expected results

- Well informed and **trained teams of inter)national experts in the field of curriculum reform**, innovation and implementation of higher education (programmes) in the subject areas covered by the project, which are empowered to inform / train other academics in four subject areas.
- Well informed and **trained groups/teams of students in the field of curriculum reform**, innovation and implementation of higher education (programmes) in the subject areas covered by the project, which are empowered to inform / train other students.
